

## HEIGHT SAFETY COURSE

This course should be undertaken by people who work in situations where they are; working above the ground, on a roof, on a platform or other structures.

The course will develop the skills and knowledge to work safely at height, through assessing the risks associated and gaining an understanding of equipment required for this type of work. Personnel will also become familiar with legislative requirements that impact on such work procedures. This course is based on hazard management systems. The unit of competence is *Work safely at heights 69819*.

### Content

- What constitutes working at height
- Legislative requirements for working at height
- Hazards associated with working at height
- Risk assessments
- Maintaining and checking of equipment
- Setting up of equipment
- Correct wearing of equipment
- Permit systems
- Emergency procedures

### Cost

The course duration is 8 hours and the fee is \$270 (GST exempt) per participant.

### Course Dates

You can find the Height Safety course dates on our website at [www.tasfiretraining.com.au/course-dates.html](http://www.tasfiretraining.com.au/course-dates.html) Alternatively please contact our regional consultants for scheduled course dates.

### Venue

This course is conducted in Burnie, Launceston and Hobart but can be conducted in the workplace where there are appropriate facilities provided and safety and environmental issues can be addressed.

### Group Booking

Group bookings and training courses can be tailored for your organisation. Please contact our regional Senior Consultants for more information and pricing.
